

ANNUAL INFORMATION FORM

Date

This Annual Information Form of West Fraser Timber Co. Ltd. ("West Fraser" or the "Company") is dated as of April 1, 2014. Except as otherwise indicated, the information contained in it is as of December 31, 2013.

Forward-looking Statements and Stock Dividend

This Annual Information Form, and the Annual Report of which it forms a part, contain historical information, descriptions of current circumstances and statements about potential future developments. The latter, which are forward-looking statements, are presented to provide reasonable guidance to the reader but their accuracy depends on a number of assumptions and is subject to various risks and uncertainties. Forward-looking statements are included under the headings "Fibre Supply – Mountain Pine Beetle and First Nations Issues" and "Capital Structure – Dividends" and in parts of the Management's Discussion & Analysis incorporated herein. Actual outcomes and results will depend on a number of factors that could affect the ability of the Company to execute its business plans, including the matters described in these sections and under "Risk Factors", and may differ materially from those anticipated or projected. Accordingly, readers should exercise caution in relying upon forward-looking statements which reflect management's estimates, projections and views only as of the date hereof. The Company undertakes no obligation to publicly revise these statements to reflect subsequent events or changes in circumstances except as required by applicable securities laws.

All references within this Annual Information Form to the number of West Fraser shares, share prices and cash dividends reflect the payment and adjustments resulting from a stock dividend, declared on December 10, 2013 and paid on January 13, 2014, applied retroactively to all comparative periods. See Note 17 to the annual consolidated financial statements contained in our 2013 Annual Report for additional information on the stock dividend.

Business Overview

West Fraser is a North American integrated wood products company which produces lumber (spruce/pine/fir ("SPF") and southern yellow pine ("SYP")), panels (plywood, MDF and LVL), pulp (NBSK and BCTMP), newsprint and wood chips. The operations located in western Canada manufacture all of the products described above except SYP lumber. The sawmills located in the southern U.S. produce SYP lumber and wood chips.

The annual production capacities of our wholly-owned facilities and our share of the capacities of our joint operation facilities are as follows:

Lumber (MMfbm)	
SPF	3,800
SYP	2,000
Total	5,800
Panels	
Plywood (MMsf 3/8")	830
MDF (MMsf 3/4")	300
LVL (Mcf)	3,200
Pulp (Mtonnes)	
BCTMP	650
NBSK	590
Newsprint (Mtonnes)	135

Corporate Strategy

Our goal at West Fraser is to generate strong financial results through the business cycle, relying on our committed work force, the quality of our assets, and our well-established corporate culture. This culture emphasizes cost control in all aspects of the business and on competitiveness, both internally and externally. In our approach to employee relations, we emphasize employee involvement and favour internal promotions whenever possible.

West Fraser is an integrated and diversified producer of wood products with access to extensive timber resources. Acquisitions and expansions are considered with a view to extending our existing business lines, particularly in lumber operations, and to product and geographic diversification. Our earnings over the business cycle have enabled us to make significant and ongoing capital investments in our facilities with the goal of achieving, maintaining or improving an overall low-cost position.

We are committed to operating in a financially conservative and prudent manner. The North American wood products industry is cyclical and over the last several years has faced very difficult market conditions and serious challenges. During such cyclical downturns, we focus on financial discipline, including reduction or deferral of non-essential capital expenditures. As market conditions improve we will typically undertake an expanded capital investment program in order to catch up on expenditures reduced or deferred during the downturn. We believe that maintaining a strong balance sheet provides the ability to react to growth opportunities.

Corporate Structure

The chart on page 7 shows the relationship of West Fraser to the principal direct and indirect subsidiaries and the joint operations in which we participate and, where less than 100%, the percentage of our direct or indirect ownership.

West Fraser assumed its present form in 1966 by the amalgamation of a group of companies under the laws of B.C. The principal operating subsidiary, West Fraser Mills Ltd., assumed its present form on January 1, 2005 by amalgamation under those laws. West Fraser, Inc. is a Delaware corporation, while Blue Ridge Lumber Inc. and Sundre Forest Products Inc. are Alberta corporations. West Fraser Newsprint Ltd. subsists under the laws of Canada. Alberta Newsprint Company ("ANC") and Cariboo Pulp & Paper Company are unincorporated joint operations governed, respectively, by the laws of Alberta and B.C.

Our executive office is located at 858 Beatty Street, Suite 501, Vancouver, B.C., Canada, V6B 1C1 and our registered office is located at 1500 – 1055 West Georgia Street, Vancouver, B.C., Canada, V6E 4N7.

History and Development of Business

West Fraser originated in 1955 when three brothers, Pete, Bill and Sam Ketcham, acquired a lumber planing mill located in Quesnel, B.C. ("Quesnel"). From 1955 through 2012 the business expanded in western Canada through the acquisition of a number of sawmills and related timber harvesting rights and the acquisition or development of lumber, panel and pulp & paper businesses. Expansion into the southern U.S. began in 2000, with the acquisition of two sawmills. An additional 13 sawmills located in the southern U.S. were acquired in 2007, one of which was decommissioned and sold in 2012 after a lengthy curtailment.

Major developments for West Fraser during the last five years include the following:

- 2010 Closure of linerboard and kraft paper mill at Kitimat, B.C. in January 2010.
- 2011 Sale of Kitimat industrial site, deep-sea wharf and Terrace sawmill.
- 2012 Purchase of sawmill at Edson, Alberta.
- 2013 Mountain Pine Beetle Plan announced, including timber tenure exchange and planned second quarter 2014 closure of Houston, B.C. sawmill.

Sales Revenue¹ (\$ millions)

Year ended December 31	2013	2012	2011	2010	2009
Lumber	2,234	1,783	1,579	1,622	1,285
Panels	460	442	370	401	391
Pulp & Paper	780	775	813	863	677
Total	3,474	3,000	2,762	2,886	2,353

1. From continuing operations and excludes intercompany fibre sales.

Fibre Supply

Our operations are dependent on the consistent supply of substantial quantities of wood fibre in various forms. The primary manufacturing facilities, which produce lumber, plywood and LVL, consume whole logs while the pulp & paper and MDF facilities mostly consume wood by-products in the form of wood chips, shavings and sawdust resulting from the production of lumber, plywood or LVL. Many facilities also consume hog fuel and wood waste in energy systems.

Log Supply

Our U.S. operations, which produce SYP lumber, consume approximately 8 million tons of logs per year operating at capacities described in this Annual Information Form. These operations obtain approximately 25% of their log requirements under certain long-term supply contracts, with the balance being purchased on the open market.

In B.C. and Alberta substantially all timberlands are publicly owned and the right to harvest timber is acquired through provincially-granted licences. Licences grant the holder the right to harvest up to a specified quantity of timber annually and either have a term of 15 to 25 years and are replaceable or renewable or have a shorter term but are not replaceable or renewable. The following table summarizes the timber tenures, as at December 31, 2013, which supply the Canadian mills that we own or in which we have an interest, as well as our Annual Allowable Cut ("AAC") for such tenures.

Timber Tenures (thousand m³)

Location	Tenure ¹	Expiry	AAC
B.C.	Coniferous Long-term	2021 – 2035	5,605
	Coniferous Short-term	2014 – 2017	687
Alberta	Coniferous Long-term	2016 – 2033	5,985
	Deciduous Long-term	2019 – 2033	1,189

1. Long-term tenures include TFLs, FMAs, timber quotas and forest licences, which are renewable timber tenures. Short-term tenures include non-replaceable forest licences.

Annual log requirements for our Canadian sawmills, plywood facilities and LVL plant, all operating at the capacities described in this Annual Information Form, total approximately 14 million m³. Approximately 78% of these requirements can be obtained from the tenures described in the above table and the balance is typically acquired from third parties holding short or long-term timber harvesting rights, including independent logging contractors, First Nations, communities and woodlot owners. We do not necessarily consume the maximum permitted volume of logs that may be harvested from our tenures annually but will adjust between tenure and purchase logs depending on circumstances including the availability of purchase logs.

Timber tenures in B.C. and Alberta require the payment of a fee, commonly known as stumpage, for timber harvested under it. Currently, stumpage in Alberta is product-price specific and varies with the sales price of the product into which the logs will be converted. Stumpage in B.C. is substantially based on the results of certain publicly-auctioned timber harvesting rights.

Timber tenures in B.C. and Alberta require the holder to carry out reforestation to ensure re-establishment of the forest after harvesting. Reforestation requirements depend on climate, terrain, species and other factors affecting regeneration. Reforestation projects are planned and supervised by our woodlands staff and are subject to approval by relevant government authorities. Our timber harvesting operations are carried out by independent contractors under the supervision of our woodlands staff.

Mountain Pine Beetle

The current mountain pine beetle infestation in the B.C. interior reached a peak a number of years ago in terms of the annual timber mortality rate according to information published by B.C.'s Ministry of Forests, Lands and Natural Resource Operations. To date, the Ministry estimates that 723 million m³ of pine has been attacked and killed and that approximately 56% of the mature pine within the province's timber harvesting land base ("THLB") will be killed by 2017. Approximately 40% of B.C.'s standing timber inventory is within the THLB and approximately 29% of this is pine. When only considering the THLB of B.C.'s Interior, approximately 37% is pine. Although the ultimate effect of the infestation is less severe than originally forecasted, the damage to the mature pine forests within our operating areas is significant.

We continue to focus on the salvage and processing of dead pine in order to utilize as much of the resource as possible and to ensure that affected sites are promptly reforested. The Province of B.C. has also limited the harvest of non-pine species until the salvage of dead pine stands comes to a conclusion. The AAC will be reduced to reflect lower mature inventories as dead pine stands are harvested or when they are no longer economic to harvest. The Province has reduced the AAC in the central Interior by approximately 8% in the past three years and we expect this process to continue over the next several years. To date, B.C.'s Chief Forester has announced reductions of the AAC in three of our operating areas in the Interior with four more announced reductions expected in 2014. As the timing of future reductions and the effect on our AACs will depend on a variety of factors, including the amount of non-pine species available for harvest, the full effect on our operations cannot reasonably be determined at this time.

In Alberta, the Ministry of Environment and Sustainable Resource Development and the forest industry continue to implement aggressive programs of early detection, single tree control and focussed harvesting activity. Beetles have declined significantly in the southern part of the province but a significant population remains in the northwest and west-central areas, including some pockets within our tenures. There is still risk of further in-flight of insects from northwestern B.C. We continue to work aggressively to reduce the number of susceptible pine stands and conduct spread control activities across the region in concert with other forest industry participants and the Province of Alberta.

Certification

Our Canadian woodlands operations, in addition to being subject to various environmental protection laws, are third-party certified to internationally-recognized, sustainable forest management standards. For more information concerning our sustainable and environmentally sound forest practices see our *Sustainability Report* and our *Environmental Report* at www.westfraser.com.

First Nations Issues

Issues relating to Canada's aboriginal people ("First Nations") have the potential to have a significant effect on resource industries in Canada, including wood products. The main First Nations issues that are relevant to our operations relate to aboriginal rights and title, and consultation.

The potential existence of aboriginal title and rights over substantial portions of B.C., including areas where our timber tenures are located, has created uncertainty with respect to property rights and natural resource development in the province. The Supreme Court of Canada (the "SCC") determined in 1997 that First Nations may possess rights in respect of land used or occupied by their ancestors where treaties have not been concluded to deal with those rights. Very few areas of B.C. are the subject of such treaties, although all of Alberta is covered by treaties. This uncertainty in B.C. may be alleviated by the negotiation of treaties with First Nations and further judgments of the courts.

In 2004, the SCC confirmed that the Crown must consult with First Nations before authorizing activity that might infringe on their interests in certain circumstances and, when appropriate to do so, seek to accommodate those interests by minimizing interference with them. In 2005 the SCC determined that this Crown duty of consultation applies to treaty lands as well as non-treaty lands, so the duty of consultation applies to all of the lands in B.C. and Alberta where our timber tenures are located. Authorizations requiring consultation may include approval of cutting permits and required ministerial action relating to the transfer or renewal of Crown timber tenures. The process of consultation and, when appropriate, accommodation is currently not clearly defined, creating some uncertainty with respect to Crown timber harvesting rights held by wood products companies, including West Fraser.

We participate as requested by the Crown in the consultation process, but rely on provincial governments to adequately discharge obligations to First Nations in order to preserve the validity of actions dealing with public rights, including the granting of Crown timber harvesting rights. We also seek to develop good relationships with the First Nations that may be affected by our business activities.

However, as the jurisprudence and government policies respecting aboriginal title and rights and the consultation process continue to evolve, we cannot at this time predict whether First Nations claims will have a material adverse effect on our timber harvesting rights or on our ability to exercise or renew them, or secure other timber harvesting rights.

Residual Fibre Supply

In Canada substantially all our requirements for wood chips, shavings and sawdust and hog fuel are supplied from our own operations, either directly or indirectly through trades. This reduces our exposure to risks associated with price fluctuations and supply shortages of these products. Our B.C. sawmills and plywood plants fulfill substantially all of the fibre requirements of our B.C. pulp operations and MDF plant. The Alberta MDF plant obtains its fibre from the adjacent Blue Ridge sawmill and other sawmills in the area. The Hinton pulp mill obtains its fibre from the adjacent Hinton sawmill and other sawmills in the area owned by us. At times we produce whole log chips at the Hinton facility to supplement the supply of residual chips from our various sawmills. Almost all of the fibre requirements of ANC are obtained from local sawmills, including the Slave Lake sawmill and veneer operation, through log-for-chip trades using logs harvested from ANC's tenures. The balance is obtained from direct fibre purchases. The Slave Lake deciduous FMA provides most of the fibre requirements of the Slave Lake pulp mill, with the balance being obtained from logs purchased from local suppliers.

The majority of the wood chips produced by our U.S. operations are sold to pulp mills at market prices pursuant to long-term contracts.

**Capital Expenditures and Acquisitions**

We regularly invest in upgrading and expanding our facilities and operations. However, during periods when earnings are weak, we will reduce capital and other expenditures in order to preserve liquidity. The following table shows the capital expenditures and acquisitions during the past five years.

Capital Expenditures and Acquisitions (\$ millions)

Year ended December 31	2013	2012	2011	2010	2009 ¹
Lumber	281	114	108	47	10
Panels	5	5	5	2	1
Pulp & Paper	71	38	99	39	7
Corporate & Other	1	2	1	1	1
	358	159	213	89	19
Acquisition	—	30	—	—	—
Total	358	189	213	89	19

1. Amounts for years prior to 2010 have not been restated under IFRS and are prepared under previous Canadian generally accepted accounting principles.

Human Resources

At December 31, 2013, we employed approximately 7,300 individuals, including our share of those in our joint operations. Of these, approximately 5,000 are employed in our lumber segment, 1,300 in our panels segment, 800 in our pulp & paper segment and 200 in our corporate segment. Approximately 39% of our employees are covered by collective agreements. In 2014, collective agreements covering approximately 75 employees will expire. Also in 2014, approximately 225 employees will be affected by the planned closure of our Houston, B.C. sawmill.

Markets

Our products are sold in markets open to a number of companies with similar products. Purchasing decisions by customers are generally based on price, quality and service. Prices and sales volumes are influenced by general economic conditions. The following table shows selected average benchmark prices for the past five years for products of the type we produced, although these prices do not necessarily reflect the prices we obtained.

Average Benchmark Prices (In US\$ except plywood)

	2013	2012	2011	2010	2009
SPF #2 & Better 2x4 (per Mfbm) ¹	356	299	255	256	182

1. Purchased October 31, 2012.

2. Restarted October 2013.

3. Indefinitely curtailed.

4. Scheduled for closure in the second quarter of 2014.

Lumber capacity by region and species is approximately 64% SPF (64% B.C. and 36% Alberta) and 36% SYP (all U.S.) and is generally based on our sawmills running on a five-day, two-shift basis with certain exceptions where logs may be available to run a third shift.

*Operations*

We own 27 sawmills of which one is currently indefinitely curtailed and one is scheduled for closure in the second quarter of 2014. We also have a wood-treating facility at the Sundre sawmill.

Sales

Lumber produced at our Canadian sawmills and sold to North American customers is marketed and sold from our sales office in Quesnel, while sales to offshore markets are made from our export sales office in Vancouver, B.C. Offshore sales activities are complemented by customer service offices in Japan and China. Lumber produced at our U.S. sawmills is marketed by the sales group in Memphis, Tennessee. From time to time, we purchase lumber for resale in order to meet requirements of customers.

In 2013 sales of lumber from Canadian and U.S. operations were made to customers in the U.S. and Canada and to customers offshore, predominantly in China and Japan. Most lumber shipments to North American customers by the Canadian operations were made by rail and the rest by truck. Most lumber shipments to North American customers by the U.S. operations were delivered by truck and the rest by rail. Offshore shipments from both Canada and the U.S. were through various public terminals in container vessels.

PANELS**Capacity and Production**

	2013	2012	2011	2010	2009

Production	1,848	1,964	1,634	1,918	1,643

Operations

Our panel operations include three plywood mills that primarily produce standard softwood sheathing plywood, two MDF mills, each with the flexibility to manufacture varying thicknesses and sizes, an LVL mill, and a veneer mill that produces veneer for use in the Edmonton plywood mill.

Sales

Plywood, LVL and MDF are marketed from our sales office in Quesnel to retail outlets, wholesale distributors, remanufacturers and treating businesses. MDF is marketed under the names "Ranger"TM, "WestPine"TM, "Eco Gold"TM and "Ecopremium"TM both from our sales office and through distributors under the direction of our sales personnel.

In 2013 the majority of our sales of plywood were made to customers in Canada, sales of MDF were to customers in the U.S., Canada and other areas and sales of LVL were to customers in the U.S. and Canada. Shipments to North America were by rail or truck and offshore shipments were by bulk and container vessels.

PULP & PAPER

Pulp

Capacity and Production (Mtonnes)

Total Production	496	529	509	525	523

1. Reflects West Fraser's 50% share of ownership.

Operations

BCTMP is produced, primarily from hardwood aspen, at our Slave Lake pulp mill and also produced, primarily from softwood, at our QRP mill. These pulps are used by paper manufacturers to produce paperboard products, printing and writing papers and a variety of other paper grades. NBSK is produced at our Hinton and Cariboo pulp mills and is used by paper manufacturers to produce a variety of paper products, including tissues and printing and writing papers.

Sales

Pulp is marketed out of our pulp sales office in Vancouver. In 2013, sales of both NBSK and BCTMP were to customers in North America, Asia, predominantly China, and to other offshore customers. Shipments within North America were primarily by rail and those to offshore customers were by rail to Vancouver and then by bulk or container vessels.

Newsprint

Capacity and Production¹ (Mtonnes)

	2013	2012	2011	2010	2009
Capacity – year-end	135	135	135	135	135
Production	119	128	122	131	111

1. Reflects West Fraser's 50% share of ownership.

Operations

The ANC mill at Whitecourt, Alberta produces standard newsprint in three basis weights: 43, 45 and 48.8 grams per square metre.

Sales

Newsprint is sold to various publishers and printers in North America through a partnership owned indirectly by the ANC owners. In 2013, sales were to customers in the U.S. and Canada. Shipments were by rail and truck.

External Factors Affecting West Fraser's Business in 2013

Economic Conditions

Our earnings are sensitive to changes in world economic conditions, primarily those in North America, Europe and Asia and particularly to the U.S. housing market. Most of our revenues are from sales of commodities for which prices are sensitive to variations in supply and demand. Since most of these sales are in foreign currencies, mainly U.S. dollars, currency exchange fluctuations against the Canadian dollar are a major source of earnings volatility for us.

Softwood Lumber Agreement

Effective October 12, 2006, a Softwood Lumber Agreement between Canada and the U.S. (the "SLA 2006") came into force. The SLA 2006 originally had a term of seven years, but in January 2012 was extended and now expires in October 2015.

Under the SLA 2006 we may be required to pay a tax to Canada on softwood lumber we export into the U.S. The basic tax may range up to 15% of the value of the lumber for producers in B.C. and Alberta, and will vary depending on a reference lumber price. Subject to U.S. lumber consumption and the volume of lumber shipments to the U.S. from either province, an additional 50% surcharge on the applicable basic tax may be levied. In certain circumstances, exporters may be entitled to a refund of up to one third of taxes paid.

Energy

Our pulp, paper and MDF operations consume substantial amounts of energy. The Hinton and Cariboo pulp mills have generating facilities which produce electricity to satisfy much of their energy requirements.

In B.C., electricity is purchased from the provincial utility at regulated prices based largely on generation costs. In Alberta, electricity is purchased at market prices through the Alberta power pool.

In Alberta, we are hedged against electricity market price fluctuations for a substantial volume of our electricity consumption through a long-term power purchase agreement that provides electricity at prices based largely on generation costs and inflation. Our exposure to energy costs includes the cost to purchase electricity, natural gas, gasoline, diesel fuels and fuel surcharges on purchased transportation.

Environment

Our manufacturing operations are subject to environmental protection laws and regulations. We have developed and apply internal programs to help ensure that our operations are in compliance with applicable laws and standards and to address any instances of non-compliance. We are committed to responsible stewardship of the environment and to the continual improvement of our forest practices and manufacturing procedures so we can optimize the use of resources and minimize the impact of our operations on the environment. We have adopted an Environmental Policy, a copy of which is available on our website at www.westfraser.com.

Risk Factors

A detailed discussion of risk factors is included in "Management's Discussion & Analysis – Risks and Uncertainties", which is incorporated herein by reference. Our Management's Discussion & Analysis is available on SEDAR at www.sedar.com.

Capital Structure

Share Capital

Our authorized share capital consists of 230,000,000 shares divided into:

- (a) 200,000,000 Common shares,
- (b) 20,000,000 Class B Common shares, and
- (c) 10,000,000 Preferred shares, issuable in series.

Each Class B Common share may at any time be exchanged for one Common share. The rights attached to the Common shares and Class B Common shares are equal in all other respects, including the right to dividends and the right to vote. The Common shares are listed and traded on the Toronto Stock Exchange under the symbol WFT while our Class B Common shares are not. Certain circumstances or corporate transactions may require the approval of the holders of our Common shares and Class B Common shares on a separate class-by-class basis.

In December 2013 we announced that a one Common share dividend would be paid in respect of each Common share and Class B Common share outstanding as at December 31, 2013, payable on January 13, 2014. This had the effect of a two-for-one share subdivision effective on January 13, 2014.

After taking this stock dividend into consideration, as at December 31, 2013, the issued share capital consisted of 83,390,026 Common shares and 2,281,478 Class B Common shares for a total of 85,671,504 shares (adjusted as at December 31, 2012 – 85,725,440 shares).

Credit Ratings

As shown in the table below, West Fraser is rated by three rating agencies. West Fraser pays annual fees to maintain its debt and corporate ratings. All three agencies upgraded our ratings to investment-grade during 2013 and all three have applied a Stable Outlook. The ratings are assigned both on a corporate level and specifically to the US\$300 million 144A debentures maturing October 2014. At below investment-grade levels, Moody's assigns a corporate as well as debt-specific rating but at investment-grade levels, ratings apply to specific debt issues. The ratings are not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time by each rating agency.

Ratings

Agency	Rating	Outlook
Dominion Bond Rating Service ¹	BBB(low)	Stable
Moody's ²	Baa3	Stable
Standard & Poor's ³	BBB-	Stable

1. DBRS credit ratings for long-term obligations range from AAA to D. A rating of BBB is described by DBRS as "adequate credit quality. The capacity for the payment of financial obligations is considered acceptable. May be vulnerable to future events". Additional information on the rating is available on DBRS's website.
2. Moody's credit ratings for long-term obligations range from Aaa to C. Moody's describes obligations rated Baa as "subject to moderate credit risk. They are considered medium-grade and as such may possess certain speculative characteristics". Additional information on the rating is available on Moody's website.
3. S&P credit ratings for long-term obligations range from AAA to D. A rating of BBB- is described by S&P as "considered lowest investment grade by market participants". Additional information on the rating is available on S&P's website.

Market Prices

The following table sets forth adjusted market prices and trading volumes of our Common shares on the Toronto Stock Exchange for each month of 2013 and 2012.

	2013				2012	
	High (\$)	Low (\$)	Close (\$)	Volume (000's)	Close (\$)	Volume (000's)
January	41.61	36.25	40.04	5,537	24.16	2,155

Cash dividends

The declaration and payment of cash dividends is within the discretion of our Board of Directors. Historically, cash dividends have been declared on a quarterly basis payable after the end of each quarter. On an annual basis, dividends of \$0.28 per share were paid in 2013, 2012 and 2011.

There can be no assurance that cash dividends will continue to be declared and paid by us in the future, as the discretion of the Board of Directors will be exercised from time to time taking into account our then current circumstances.

Transfer Agent

Our transfer agent and registrar is Canadian Stock Transfer, with registers of transfers in Vancouver and Toronto.

**Experts**

Our auditors are PricewaterhouseCoopers LLP ("PwC"), who prepared the Auditor's Report included with our Consolidated Financial Statements for the year ended December 31, 2013. PwC has confirmed that it is independent with respect to us, within the meaning of the Rules of Professional Conduct of the Institute of Chartered Accountants of B.C., as of February 13, 2014.

Directors and Officers*Directors*

The names and municipalities of residence of the directors of the Company, their principal occupations during the past five years and the periods during which they have been directors of the Company are as follows:

Name and Municipality of Residence	Principal Occupation	Director Since

Shareholdings of Directors and Officers

The directors and executive officers of the Company as a group, beneficially owned or controlled or directed, directly or indirectly, the following shares of the Company:

	December 31, 2013	December 31, 2012
Common shares	1,910,572	2,043,652
% of total Common shares	2%	2%
Class B Common shares	78,728	78,728
% of total Class B Common shares	3%	3%
% of all shares outstanding	2%	2%

**Governance**

Corporate governance is guided by our Corporate Governance Policy, a copy of which may be viewed on our website: www.westfraser.com. The Board of Directors has established a Governance & Nominating Committee comprised of all non-management directors. The Committee provides support for the stewardship and governance role of the Board in reviewing and making recommendations on the composition of the Board, the functioning of the Board and its committees, succession planning and all other corporate governance matters and practices. On the occasion of each regularly-scheduled meeting of the Board in 2013, the Committee met without management representatives present and reviewed these and other issues.

Audit Committee

The Audit Committee of our Board of Directors assists the Board in fulfilling its responsibility to oversee our financial reporting and audit process. The full text of the Audit Committee's Charter is attached as Schedule 1.

Members

The following identifies each current member of the Audit Committee, and the education and experience of each member that is relevant to the performance of the member's responsibilities as an Audit Committee member. All members of the Audit Committee are considered "independent" and "financially literate" within the meaning of NI 52-110.

J. Duncan Gibson

Mr. Gibson holds a Bachelor of Commerce and a Masters of Business Administration. His career spanned 27 years with the Toronto-Dominion Bank, including nine years in the Corporate Banking, U.S. Division, and as Vice Chairman with responsibility for the Commercial Banking Division.

Clark S. Binkley

Dr. Binkley holds a Bachelor of Arts in Applied Mathematics and a PhD in Forestry and Environmental Studies. He is the Chief Investment Officer of a private equity timberland investment firm. He has served as a director of public and private forest products companies.

Janice G. Rennie

Mrs. Rennie, who holds a Bachelor of Commerce, is a Chartered Accountant. She was elected as Fellow of the Chartered Accountants in 1998. Mrs. Rennie has chaired or been a member of several audit committees of public companies, including Teck Resources Limited, Nova Chemicals Inc., Weldwood of Canada Limited, Canadian Hotel Income Properties REIT, Capital Power Corporation, Methanex Corporation, Major Drilling Group International Inc. and Matrikon Inc.

Pre-Approval Policies and Procedures

The Audit Committee has adopted a policy that sets out the pre-approval requirements related to services to be performed by our independent auditors. The policy provides that the Committee will annually review proposed audit, audit-related, tax and other services (to be submitted by the Chief Financial Officer and the independent auditor), and will provide general approval of described services, usually including specific maximum fee amounts.

Unless a service has received general pre-approval, it will require specific pre-approval by the Committee. The Committee is permitted to delegate pre-approval authority to any of its members. The Committee reports on the pre-approval process to the full Board of Directors from time to time.

Fees Paid to Auditors (\$ thousands)

	2013	2012
Audit Fees ¹	926	920
Audit-Related Fees ²	203	209
Tax Fees	393	529

1. Represents actual and estimated fees related to fiscal year-ends.

2. For assurance and related services that are reasonably related to the performance of the audit but are not reported as "Audit Fees".

Material Contracts

On March 30, 2007, we entered into a committed revolving \$600 million operating facility with an original maturity date of 2012. The facility has been amended from time to time to extend the maturity date, to reflect certain covenant adjustments and for the granting of security. On December 13, 2010 we reduced the facility from \$600 million to \$500 million and as at December 20, 2013, we extended the maturity date to September 2018.

Additional Information

Additional information, including directors' and officers' remuneration and indebtedness, principal holders of our securities and securities authorized for issuance under equity compensation plans, is contained in the Information Circular for the annual general meeting of the Company to be held on April 29, 2014. Additional financial information is provided in our annual consolidated financial statements and Management's Discussion & Analysis for the year ended December 31, 2013.

Copies of our Annual Report, which includes this Annual Information Form and the documents incorporated by reference herein, our annual consolidated financial statements (including the auditor's report) for the year ended December 31, 2013, as well as the unaudited interim condensed consolidated financial statements prepared for a period after December 31, 2013, and our Information Circular may be obtained at any time upon request from us, but we may require the payment of a reasonable charge if the request is made by a person who is not a security holder of the Company.

This Annual Information Form, our Annual Report and additional information concerning the Company may also be obtained on the website www.westfraser.com and on the System for Electronic Document Analysis and Retrieval ("SEDAR") at www.sedar.com.

Schedule 1

The Audit Committee Charter, which is set out below, was approved by the Board on December 8, 2010.

General Mandate

To assist the Board in fulfilling its responsibility to oversee the Company's financial reporting and audit processes, its system of internal controls and its process for monitoring compliance with applicable financial reporting and disclosure laws and its own policies.

Responsibilities

The Committee will carry out the following responsibilities:

Financial Statements

- Review significant accounting and financial reporting issues, including complex or unusual transactions, significant contingencies and highly judgmental areas, and recent professional and regulatory pronouncements, and understand their impact on the Company's financial statements
- Review interim financial reports (including financial statements, management's discussion and analysis and related news releases) with management and the auditors, consider whether they are complete and consistent with the information known to Committee members and provide a recommendation to the Board with respect to the approval of the interim financial reports
- Understand how management develops interim financial information, and the nature and extent of auditor involvement
- Review with management and the auditors the results of the audit, including any difficulties encountered
- Review the annual financial statements, the annual management discussion and analysis and related news releases, and consider whether they are complete, consistent with information known to Committee members, and reflect appropriate accounting principles, and provide a recommendation to the Board with respect to the approval of the statements, the management discussion and analysis and the news release
- Review with management and the auditors all matters required to be communicated to the Committee under generally accepted auditing standards
- Approve, if so delegated by the Board, the interim financial reports and annual financial statements and the filing of the same together with all required documents and information with regulators

Internal Control

- Require management of the Company to implement and maintain appropriate internal control procedures over annual and interim financial reporting
- Review with management and auditors the adequacy and effectiveness of the Company's internal control over annual and interim financial reporting, including information technology security and control and controls related to the prevention and detection of fraud and improper or illegal transactions or payments, the status of the remediation of any identified control deficiencies, and elicit recommendations for improvements
- Understand the scope of the auditor's review of internal control over financial reporting, and obtain and review reports on significant findings and recommendations, including respecting the Company's accounting principles or changes to such principles or their application and the treatment of financial information discussed with management, together with management's responses

Audit

- Review the auditor's proposed audit scope and approach
- Review the performance of the auditors, and provide a recommendation to the Board with respect to the nomination of the auditors for appointment and remuneration
- Review and confirm the independence of the auditors by obtaining statements from the auditors on relationships between the auditors and the Company, including non-audit services, and discussing the relationships with the auditors
- Periodically evaluate the need for the establishment of an internal audit function and make appropriate recommendations to the Board

Compliance

- Review the effectiveness of the system for monitoring compliance with financial reporting and disclosure laws and the results of management's investigation and follow-up (including disciplinary action) of any instances of non-compliance
- Review the findings of any examinations by regulatory agencies, and any auditor observations
- Obtain regular updates from management and Company legal counsel regarding compliance matters

Reporting Requirements

- Regularly report to the Board about Committee activities, issues and related recommendations
- Provide an open avenue of communication between the auditors and the Board
- Review any reports the Company issues that relate to Committee responsibilities

Other Responsibilities

- Institute and oversee special investigations as needed
- Develop and implement a policy for the approval of the provision of non-audit services by the auditors and assessing the independence of the auditors in the context of these engagements
- Establish procedures for: (a) the receipt, retention and treatment of complaints received regarding non-compliance with the Company's Code of Conduct, violations of laws or regulations, or concerns regarding accounting, internal accounting controls or auditing matters; and (b) the confidential, anonymous submission by officers or employees of the Company or by other persons of concerns regarding questionable accounting, auditing or financial reporting and disclosure matters or non-compliance with the Company's Code of Conduct or other matters that are of a sensitive or "whistleblower" nature
- Perform other activities related to this charter as requested by the Board
- Review and assess the adequacy of this charter annually, requesting Board approval for proposed changes
- Review terms of any Code of Conduct established by the Board and respond to any related compliance issues
- Confirm annually to the Board that all responsibilities outlined in this charter have been carried out

Qualifications and Procedures

- The composition of the Committee will comply with applicable laws including requirements for independence, unrelated to management, financial literacy and audit experience
- The Committee will meet at least four times annually, and more frequently as circumstances dictate, and the CFO and a representative of the auditors should be available on request to attend all meetings
- The Committee should meet privately in executive session with representatives of each of management and of the auditors to discuss any matters of concern to the Committee or such members, including any post-audit management letter
- Minutes of each meeting should be prepared, approved by the Committee and circulated to the full Board
