

CLEARING SNOW FROM VEHICLES

It is important to completely clear all snow from vehicles. This includes all windows, mirrors, headlights, license plates and roof. It's for your safety. It is a ticket offence in some jurisdictions!

Key points for safe use:

- Use a good quality snow brush.
- Employ the scraper for icy surfaces.
- If need be, use a broom, or snow brush with a telescoping/longer handle for roof and hard to reach areas.
- Consider leaving your windshield wipers "up" if snowfall is expected.

**Winter driving is challenging enough!
Give yourself a leg up with a clear field of vision. CLEAR THE SNOW BEFORE YOU GO!**
