

# SEAT BELT SAFETY

A **seat belt** or safety **belt** is a vehicle safety device designed to secure the driver or a passenger of a vehicle/mobile equipment against harmful movement that may result during a collision, sudden stop, turn or bump in the road.

## Seat-belts: the facts

Wearing a seat-belt reduces the risk of a fatal injury by:

Seatbelts must be used correctly at all times by the driver and passengers when a vehicle or mobile equipment is in operation. Employees will operate the vehicle only after all passengers are safely buckled up.

*"safety is a core value and business priority"*
