

# Broken and Damaged Tools

*Remember to inspect tools before every use!*

If a tool is damaged or broken, it should be removed from use and reported.

**Broken/split handles**

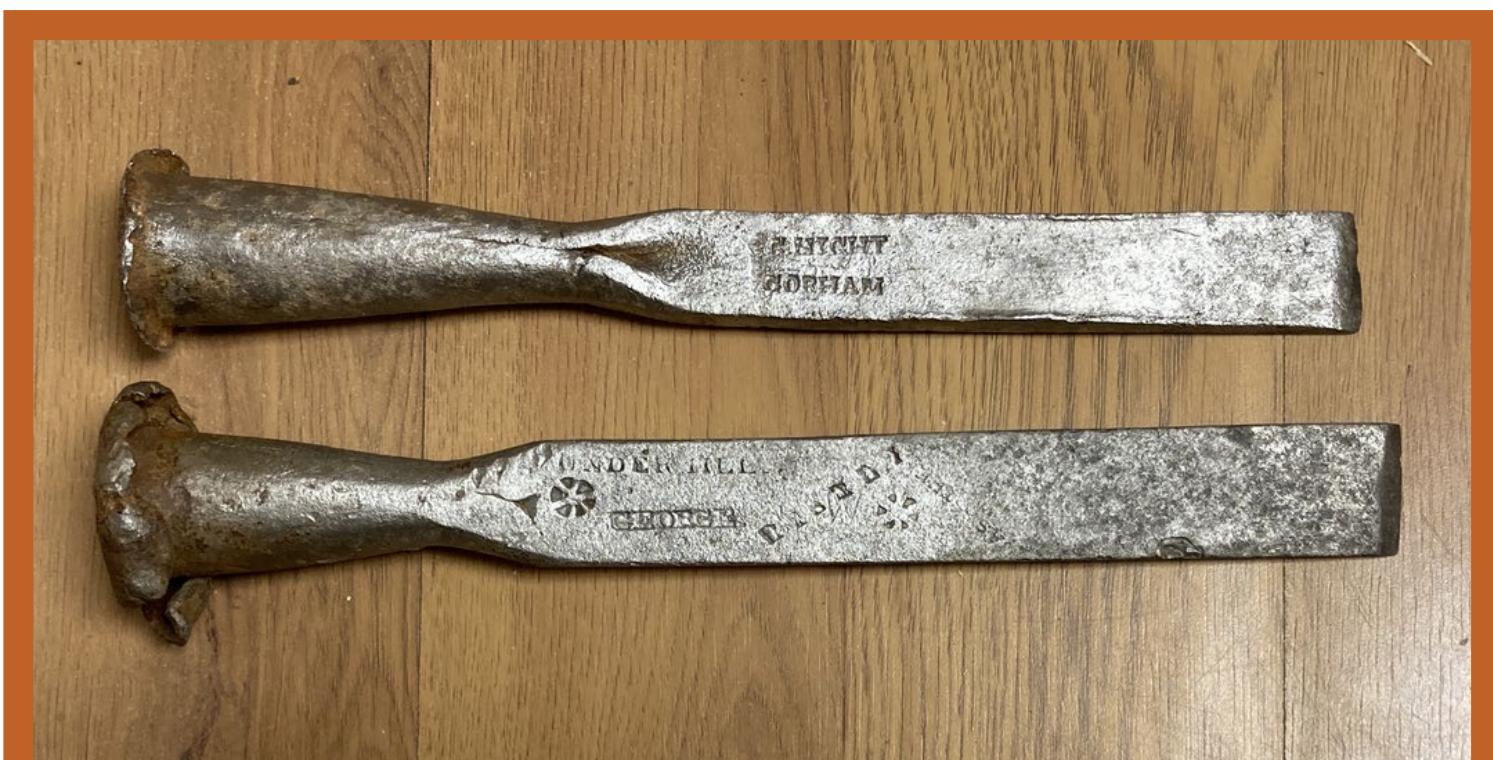

**Rust or damage from wear and tear**

**Ripped, worn, or torn slings and casings**

**Chisels or pegs with mushroomed heads**

**Electrical tools which have signs of damage on their cords**

*“Safety is a core value and business priority”*
