

West Fraser Mills Ltd. is proposing amendment 3 to Forest Stewardship Plan #651 for the Lakes Timber Supply Area. The amendment would exempt West Fraser from specifying a result and strategy for the established Visual Quality Objectives for Visual Landscape Inventory Polygons Numbers 247 (Babine Lake) and 279 (Taltapin Lake) within the Lakes North Forest Development Unit.

The exemption is requested to enable the harvest of blocks containing stands damaged by the 2023 Fisheries Fire (R11277).

The proposed amendment is available for public review and comment at the West Fraser Mills office, 1250 Brownmiller Road, Quesnel, from February 18, 2026, to April 19, 2026. People may review the plan at this location during the business hours from 8am to 4:30 pm. It can also be viewed online at:
