4. Joint venture interest in Cariboo Pulp & Paper Company.
5. Joint venture interest in Alberta Newsprint Company owned through West Fraser Newsprint Ltd., a wholly-owned subsidiary.
6. Permanently shut down January 2010.

Date

This Annual Information Form of West Fraser Timber Co. Ltd. ("West Fraser" or the "Company") is dated as of March 26, 2010. Except as otherwise indicated, the information contained in it is as of December 31, 2009.

Business Overview

West Fraser is a North American wood products company. Its main product is lumber (spruce/pine/fir ("SPF") and southern yellow pine ("SYP")), and it also produces panels (plywood, MDF and LVL), pulp (NBSK and BCTMP), newsprint and wood chips. The operations located in western Canada manufacture all of the products described above except SYP lumber. The sawmills located in the southern United States produce SYP lumber and wood chips.

The annual production capacities of West Fraser's wholly-owned facilities and its share of the capacities of its joint venture facilities are as follows:

Lumber (MMfbm)	
SPF	3,500
SYP	2,000
Total	5,500
Panels	
Plywood (MMsf ³ / ₈ "	830
MDF (MMsf ³ / ₄ "	300
LVL (Mcf)	3,200
Pulp (Mtonnes)	
BCTMP	580
NBSK	530
Newsprint (Mtonnes)	135

Corporate Strategy

West Fraser's goal is to generate strong financial results through the business cycle, relying on its committed work force, the quality of its assets, and its well-established corporate culture. This culture places emphasis on cost control in all aspects of the business and on competitiveness, both internally and externally. In its approach to employee relations, West Fraser emphasizes employee involvement and favours internal promotions whenever possible.

West Fraser is an integrated and diversified producer of wood products with access to extensive timber resources. Acquisitions and expansions are considered with a view to extending its existing business lines, particularly in solid wood operations, and to product and geographic diversification. West Fraser's relatively stable earnings over the business cycle have enabled it to make significant and ongoing capital expenditures in its facilities and thereby ensure that its overall low-cost position is maintained or improved.

Forward-looking Statements

This Annual Information Form, and the Annual Report of which it forms a part, contain historical information, descriptions of current circumstances and statements about potential future developments. The latter, which are forward looking statements, are presented to provide reasonable guidance to the reader, but their accuracy depends on a number of assumptions and is subject to various risks and uncertainties. Forward looking statements are included under the headings "Fibre Supply – First Nations Claims", "Capital Expenditures and Acquisitions" and "Capital Structure – Dividends" and in parts of the Management's Discussion & Analysis (the "MD&A") incorporated herein. Actual outcomes and results will depend on a number of factors that could affect the ability of the Company to execute its business plans, including the matters described in these sections and under "Risk Factors", and may differ materially from those anticipated or projected. Readers are encouraged to review the various matters described under "Risks and Uncertainties" in the MD&A which include both operational and non-operational factors. Accordingly, readers should exercise caution in relying upon forward looking statements which reflect management's estimates, projections and views only as of the date hereof. The Company undertakes no obligation to publicly revise these statements to reflect subsequent events or changes in circumstances except as required by applicable securities laws.

West Fraser is committed to operating in a financially conservative and prudent manner. The North American wood products industry is cyclical, and certain segments presently face very difficult market conditions and serious challenges. During such cyclical downturns, West Fraser focuses on financial discipline, including reduction or deferral of non-essential capital expenditures. Management also believes that maintaining a strong balance sheet provides the ability to react to growth opportunities.

Corporate Structure

The chart on page 8 shows the relationship of West Fraser to its principal direct and indirect subsidiaries and the joint ventures in which it participates and, where less than 100%, the percentage of its direct or indirect ownership.

West Fraser assumed its present form in 1966 by the amalgamation of a group of companies under the laws of British Columbia. Its principal operating subsidiary, West Fraser Mills Ltd., assumed its present form on January 1, 2005 by amalgamation under those laws. West Fraser, Inc. is a Delaware corporation, while Blue Ridge Lumber Inc. and Sundre Forest Products Inc. are Alberta corporations. West Fraser Newsprint Ltd. subsists under the laws of Canada. Alberta Newsprint Company ("ANC") and Cariboo Pulp & Paper Company ("Cariboo") are unincorporated joint ventures governed, respectively, by the laws of Alberta and British Columbia.

West Fraser's executive office is located at 858 Beatty Street, Suite 501, Vancouver, British Columbia, Canada, V6B 1C1 and its registered office is located at 1500 – 1055 West Georgia Street, Vancouver, British Columbia, Canada, V6E 4N7.

History

West Fraser originated in 1955 when three brothers, Pete, Bill and Sam Ketcham, acquired a lumber planing mill located in Quesnel, B.C. ("Quesnel"). From 1955 through 2004 the business expanded in western Canada through the acquisition of a number of sawmills and related timber harvesting rights and the acquisition or development of solid wood, panel and pulp & paper businesses.

Major developments for West Fraser during the last five years include the following:

- 2006 Softwood Lumber Agreement comes into force; West Fraser subsequently receives \$387 million in duty refunds, net of a special charge, and interest of \$50 million.
- 2006 Burns Lake and Decker Lake sawmills and related timber harvesting rights sold.
- 2006 Construction of new sawmill in Quesnel to replace existing sawmill.
- 2007 Acquisition of 13 sawmills in the southern United States (the "U.S. Acquisition") for \$391 million.
- 2009 Announced closure of linerboard and kraft paper mill at Kitimat, B.C. which occurred January 2010

Sales Revenue (\$ millions)

Table 1

Year ended December 31	2009	2008	2007	2006	2005
Lumber	1,285	1,645	1,802	1,756	2,021
Panels	391	428	475	475	511
Pulp & Paper	936	1,116	1,039	1,095	1,045
Total	2,612	3,189	3,316	3,326	3,577

Fibre Supply

West Fraser's operations are dependent on the consistent supply of substantial quantities of wood fibre in various forms. Its primary manufacturing facilities, which produce lumber, plywood and LVL, consume whole logs while its pulp & paper and MDF facilities mostly consume wood by-products in the form of wood chips, shavings and sawdust resulting from the production of lumber, plywood or LVL. Most of the facilities also consume hog fuel and wood waste in energy systems.

Log Supply

West Fraser's U.S. operations, which produce SYP lumber, consume approximately 9 million tons (7 million m³) of logs per year operating at capacity. These operations obtain approximately 25% of their log requirements under certain long-term supply contracts, with the balance being purchased on the open market.

In British Columbia and Alberta substantially all timberlands are publicly owned and the right to harvest timber is acquired through provincially-granted licences. Licences grant the holder the right to harvest up to a specified quantity of timber annually and either have a term of 15 to 25 years and are replaceable or renewable or have a shorter term but are not replaceable or renewable. Table 2 summarizes the timber tenures as at December 31, 2009 supplying the Canadian mills that West Fraser owns or in which it has an interest, and the AAC.

Timber Tenures (thousand m³)**Table 2**

Location	Tenure ¹	Expiry	AAC
B.C.	Coniferous Long-term	2021-2025	5,339
	Coniferous Short-term	2011-2017	707
Alberta	Coniferous Long-term	2012-2029	5,029
	Deciduous Long-term	2012-2029	994

1. Long-term tenures include TFLs, FMAs, timber quotas and forest licences, which are renewable timber tenures. Short-term tenures include non-replaceable forest licences.

Annual log requirements for West Fraser's Canadian sawmills, plywood facilities and LVL plant operating at capacities described in this Annual Information Form total approximately 13 million m³. Approximately 66% of these requirements can be obtained from the tenures described in Table 2 and the balance is acquired from third parties holding short or long-term timber harvesting rights, including independent logging contractors, First Nations, communities and woodlot owners.

Timber tenures in British Columbia and Alberta require the payment of a fee, commonly known as stumpage, for timber harvested under it. Currently, stumpage in Alberta is product-price specific and varies with the sales price of the product into which the logs will be converted. Stumpage in British Columbia is substantially based on the results of certain publicly-auctioned timber harvesting rights.

Timber tenures in British Columbia and Alberta require the holder to carry out reforestation to ensure re-establishment of the forest after harvesting. Reforestation requirements depend on climate, terrain, species and other factors affecting regeneration. Reforestation projects are planned and supervised by West Fraser's woodlands staff and are subject to approval by relevant government authorities. West Fraser's timber harvesting operations are carried out by independent contractors under the supervision of the Company's woodlands staff.

Certification

West Fraser's Canadian woodlands operations, in addition to being subject to various environmental protection laws, are third party certified to internationally-recognized, sustainable forest management standards. For more information concerning West Fraser's sustainable and environmentally sound forest practices see West Fraser's *Sustainability Report* at www.westfraser.com and the Environmental Report included in West Fraser's Annual Report.

First Nations Claims

The potential existence of aboriginal title and rights over substantial portions of British Columbia, including areas where West Fraser's timber tenures are located, has created uncertainty with respect to property rights and natural resource development in the province. The Supreme Court of Canada (the "SCC") determined in 1997 that First Nations may possess rights in respect of land used or occupied by their ancestors where treaties have not been concluded to deal with those rights. Very few areas of British Columbia are the subject of such treaties.

In 2004, the SCC confirmed that the Crown must consult with First Nations before authorizing activity that might infringe on their interests in certain circumstances and, when appropriate to do so, seek to accommodate those interests by minimizing interference with them. Authorizations requiring consultation may include approval of cutting permits and required ministerial action relating to the transfer or renewal of Crown timber tenures. The process of consultation and, when appropriate, accommodation is currently not clearly defined, creating some uncertainty with respect to Crown timber harvesting rights held by wood products companies, including West Fraser.

The Company relies on provincial governments to adequately discharge obligations to First Nations in order to preserve the validity of actions dealing with public rights, including the granting of Crown timber harvesting rights. This uncertainty may be alleviated by the negotiation of treaties with First Nations and further judgments of the courts. However, as the jurisprudence and government policies respecting aboriginal title and rights and the consultation process continue to evolve, West Fraser cannot at this time predict whether First Nations claims will have a material adverse affect on its timber harvesting rights or on its ability to exercise or renew them, or secure other timber harvesting rights.

Residual Fibre Supply

In Canada substantially all of West Fraser's requirements for wood chips, shavings and sawdust are supplied from its own operations, either directly or indirectly through trades. This reduces its exposure to risks associated with price fluctuations and supply shortages. Its British Columbia sawmills and plywood plants fulfill substantially all of the fibre requirements of its British Columbia pulp & paper operations and MDF plant. The Alberta MDF plant obtains its fibre from the adjacent Blue Ridge sawmill and other sawmills in the area. The Hinton Pulp mill obtains its fibre from the adjacent Hinton sawmill and other sawmills in the area, including those owned by West Fraser. At times the Company produces whole log chips to supplement the supply of residual chips from its various sawmills. Almost all of the fibre requirements of ANC are obtained from local sawmills, including the Slave

Lake sawmill and veneer operation, through log-for-chip trading using logs harvested from ANC's tenures. The balance is obtained from direct fibre purchases. The Slave Lake deciduous FMA provides most of the fibre requirements of the Slave Lake Pulp mill, with the balance being obtained from logs purchased from local suppliers.

The majority of the wood chips produced by West Fraser's U.S. operations are sold to pulp mills at market prices pursuant to long-term contracts.

Capital Expenditures and Acquisitions

West Fraser regularly invests in upgrading and expanding its facilities and operations. However, during periods when earnings are weak, such as in 2009, West Fraser will reduce capital spending and carefully monitor all expenditures in order to preserve liquidity. Table 3 shows the capital expenditures and acquisitions during the past five years.

Year ended December 31	2009	2008	2007	2006	2005
Lumber	10	27	49	122	147
Panels	1	1	8	20	24

Corporate & Other	1	2	2	2	6
	19	47	104	211	224
Acquisitions	—	—	391	—	—
Total	19	47	495	211	224

The Company completed the U.S. Acquisition in 2007.

Human Resources

At December 31, 2009, West Fraser employed approximately 7,300 individuals, including its share of those in joint venture operations. The subsequent closure of the Company's linerboard and kraft paper mill at Kitimat, B.C. in January 2010 reduced the number of employees by approximately 500. Of the remaining employees, approximately 42% are covered by collective agreements. Collective agreements covering approximately 1,630 employees expired in 2009 but continue to apply to those employees pending the settlement of new collective agreements. In 2010, collective agreements covering approximately 75 employees will expire (2011 to 2012 – approximately 1,100 employees).

Markets

West Fraser's products are sold in markets open to a number of companies with similar products. Purchasing decisions by customers are generally based on price, quality and service. Prices and sales volumes are influenced by general economic conditions. Table 4 shows selected average benchmark prices for the past five years for products of the type produced by West Fraser, although these prices do not necessarily reflect the prices it obtained.

Research and Development

West Fraser supports industry research and development organizations, and conducts research and development at several plants to improve processes, maximize resource utilization and develop new products and environmental applications.

1. Shut down September 2005.

2. Includes production to October 31, 2006, when the Company's interest in these mills was sold.

3. Mills acquired on March 31, 2007.

4. Shut down May 2008.

5. Indefinitely curtailed.

Lumber capacity by region and species is approximately 64% SPF (47% B.C. and 17% Alberta) and 36% SYP (all U.S.).

Annual Information Form (continued)

Operations

West Fraser owns 29 sawmills of which 5 are currently indefinitely curtailed. The Company also has a wood-treating facility at the Sundre sawmill.

Sales

Lumber produced at West Fraser's Canadian sawmills and sold to North American customers is marketed and sold from the Company's sales office in Quesnel, while sales to offshore markets are made from its export sales office in Vancouver, B.C. Offshore sales activities are complemented by customer service offices in Japan and China. Lumber produced at West Fraser's U.S. sawmills is marketed by its sales group in Memphis, Tennessee. From time to time, the Company purchases lumber for resale in order to meet requirements of customers.

In 2009 approximately 69% of lumber sales by value from Canadian and U.S. operations were to customers in the United States, 20% to customers in Canada and 11% to customers offshore, predominantly China and Japan. Most lumber shipments to North American customers by the Canadian operations were made by rail and the rest by truck. Offshore shipments were through public terminals in Vancouver. Most lumber shipped by the U.S. operations was delivered by truck and the rest by rail.

Production	1,643	1,264	2,291	3,000	3,179

Operations

West Fraser's panel operations include three plywood mills that primarily produce standard softwood sheathing plywood, two MDF mills, each with the flexibility to manufacture varying thicknesses and sizes, an LVL mill, and a veneer mill that produces veneer for use in the Edmonton plywood mill.

Sales

Plywood and LVL are marketed from the Company's sales office in Quesnel to retail outlets, wholesale distributors, remanufacturers and treating businesses. MDF is marketed under the names "Ranger"™, "WestPine"™, "Eco-Gold"™ and "Ecopremium"™ from West Fraser's Edmonton, Alberta sales office and through distributors under the direction of West Fraser's sales personnel.

In 2009, approximately 97% of plywood sales by value were made to customers in Canada and 3% to customers in the United States; approximately 49% of MDF sales by value were to customers in the United States, 45% to customers in Canada and 6% to customers in Asia and other areas; and approximately 53% of LVL sales by value were to U.S. customers and the balance to Canadian customers. Shipments to North America were by rail or truck and offshore shipments were by bulk and container vessels.

PULP & PAPER

Pulp

Capacity and Production (Mtonnes)

Table 7

Cariboo ²	162	158	164	162	161
Total Production	523	483	466	543	581

1. Reflects closure of #1 line at Hinton Pulp in 2007.

2. Reflects West Fraser's 50% share of ownership.

Operations

West Fraser produces hardwood BCTMP, primarily from aspen at the Slave Lake pulp mill and softwood BCTMP at the QRP mill. These pulps are used by paper manufacturers to produce printing and writing papers, paperboard products and a variety of other paper grades. NBSK is produced at the Hinton and Cariboo pulp mills and is used by paper manufacturers to produce a variety of paper products, including printing and writing papers and tissues.

Sales

Pulp is marketed out of West Fraser's pulp & paper sales office in Vancouver. In 2009, approximately 30% of the combined pulp sales by value were to customers in North America, 58% to customers in Asia, 9% to customers in Europe and the balance to other offshore customers. Shipments within North America were primarily by rail and those to offshore customers were by rail to Vancouver and then by bulk and container vessels.

Linerboard and Kraft Paper

Capacity and Production¹ (Mtonnes)

Table 8

	2009	2008	2007	2006	2005
Capacity – year-end	470	470	470	470	450

Linerboard	315	326	312	338	337
Kraft paper	107	115	115	121	112
Total Production	422	441	427	459	449

1. Permanently shut down January 2010.

Operations

In the fourth quarter of 2009, West Fraser announced the permanent closure of the linerboard and kraft paper mill at Kitimat, B.C. Production continued until the end of January 2010 at which time the mill was shut down.

Sales

In 2009 approximately 23% of all sales by value were to customers in the U.S. and Canada, 16% to customers in Asia, 16% to customers in Europe, and the balance to customers in other markets. Sales to North American customers were shipped by a combination of barge, rail and truck. Offshore sales were either shipped directly from Kitimat on bulk vessels or barged to Vancouver for shipment by container vessels.

Newsprint

Capacity and Production¹ (Mtonnes)

Table 9

	2009	2008	2007	2006	2005
Capacity – year-end	135	135	135	135	135
Production	111	125	125	125	130

1. Reflects West Fraser's 50% share of ownership.

Operations

The ANC mill at Whitecourt, Alberta produces standard newsprint in two basis weights: 45 and 48.8 grams per square metre.

Sales

Newsprint is sold to various publishers in North America through a partnership owned indirectly by the ANC owners. In 2009 approximately 71% of all sales by value were to customers in the United States and the balance to customers in Canada. Shipments were by rail and truck.

External Factors Affecting West Fraser's Business in 2009*Economic Conditions*

West Fraser's earnings are sensitive to changes in world economic conditions, primarily those in North America, Europe and Asia and particularly to the U.S. housing market. Most of the Company's revenues are from sales of commodities for which prices are sensitive to variations in supply and demand. Since most of these sales are in foreign currencies, mainly U.S. dollars, currency exchange fluctuations against the Canadian dollar are a major factor for West Fraser.

Softwood Lumber Agreement

Effective October 12, 2006 a Softwood Lumber Agreement between Canada and the United States (the "SLA 2006") came into force, having a term of seven years which may be extended for another two years by agreement. After the initial 18 months of the term, either party may terminate the SLA 2006 by providing not less than six months notice to the other.

Under the SLA 2006 the Company must pay a tax to Canada on softwood lumber it exports into the United States. The basic tax may range up to 15% for producers in British Columbia and Alberta, and will vary depending on a reference lumber price. Subject to U.S. lumber consumption and the volume of lumber shipments to the United States from either province, an additional 50% surcharge on the applicable basic tax may be levied. In certain circumstances, exporters may be entitled to a refund of up to one third of taxes paid.

Energy

The Company's pulp, paper and MDF operations consume substantial amounts of energy. The Hinton and Cariboo pulp mills have generation facilities which produce electricity to satisfy much of their energy requirements.

In British Columbia, electricity is purchased from the provincial utility at regulated prices based largely on generation costs. In Alberta, electricity is purchased at market prices through the Alberta power pool.

In Alberta, West Fraser is hedged against electricity market price fluctuations for a substantial volume of its electricity consumption through a long-term power purchase agreement that provides electricity at prices based largely on generation costs and inflation. West Fraser's exposure to energy costs includes the cost to purchase electricity, natural gas, gasoline, diesel fuels and fuel surcharges on purchased transportation.

Environment

West Fraser's manufacturing operations are subject to environmental protection laws and regulations. The Company has developed internal programs, including ongoing capital expenditures, to ensure that its operations are in compliance with applicable laws and standards and to address any instances of non-compliance. West Fraser is committed to responsible stewardship of the environment and the continual improvement of its forest practices and manufacturing procedures to optimize the use of resources and minimize the impact of its operations on the environment. The Company has adopted an Environmental Policy, a copy of which is included in West Fraser's Annual Report and is available on its website at www.westfraser.com.

Risk Factors

A detailed discussion of risk factors is included in "Management's Discussion & Analysis – Risks and Uncertainties", which is incorporated herein by reference.

Capital Structure

Share Capital

The authorized share capital of the Company consists of 230,000,000 shares divided into:

- (a) 200,000,000 Common shares,
- (b) 20,000,000 Class B Common shares, and
- (c) 10,000,000 Preferred shares, issuable in series.

The Common shares and Class B Common shares are equal in all respects, including the right to dividends, except that each Class B Common share may at any time be exchanged for one Common share. The Common shares are listed and traded on the Toronto Stock Exchange under the symbol WFT. As at December 31, 2009, the issued share capital consisted of 40,009,331 Common shares and 2,806,478 Class B Common shares for a total of 42,815,809 shares (December 31, 2008 – 42,805,086 shares).

Credit Ratings

A description of the credit ratings accorded to West Fraser and its securities is included in the "Management's Discussion & Analysis – Capital Structure and Liquidity", which is incorporated herein by reference.

Market Prices

The following table sets forth market prices and trading volumes of the Company's Common shares on the Toronto Stock Exchange for each month of 2009 and 2008.

Table 10

	2009				2008	
	High (\$)	Low (\$)	Close (\$)	Volume (000's)	Close (\$)	Volume (000's)
January	32.64	23.52	30.00	1,375	32.25	2,421

Dividends

The declaration and payment of dividends is within the discretion of the Board of Directors of the Company. Historically, dividends have been declared on a quarterly basis payable after the end of each quarter. In each of 2007 and 2008, the Company declared quarterly cash dividends of \$0.14 per Common share and Class B Common share. In 2009 the Company reduced the quarterly dividend starting in the second quarter from \$0.14 to \$0.03. There can be no assurance that dividends will continue to be declared and paid by the Company in the future, as the discretion of the Board of Directors will be exercised from time to time taking into account the current circumstances of the Company.

Transfer Agent

West Fraser's transfer agent and registrar is CIBC Mellon Trust Company, with registers of transfers in Vancouver and Toronto.

Experts

West Fraser's auditors are PricewaterhouseCoopers LLP ("PwC"), who prepared the Auditors' Report included with the Company's Consolidated Financial Statements for the year ended December 31, 2009. PwC has confirmed that it is independent with respect to the Company, within the meaning of the Rules of Professional Conduct of the Institute of Chartered Accountants of British Columbia, as of February 12, 2010.

Directors and Officers

Shareholdings of Directors and Officers

The directors and executive officers of the Company as a group, beneficially owned or controlled or directed, directly or indirectly, the following shares of the Company:

Table 11

	December 31, 2009	December 31, 2008
Common shares	5,309,520	5,391,262
% of total Common shares	13%	13%
Class B Common shares	911,794	911,794
% of total Class B Common shares	32%	32%
% of all shares outstanding	15%	15%

Governance

Corporate governance is guided by West Fraser's Corporate Governance Policy, a copy of which may be viewed on the Company's web site: www.westfraser.com. The Board of Directors has established a Governance & Nominating Committee comprised of all non-management directors. The Committee provides support for the stewardship and governance role of the Board in reviewing and making recommendations on the composition of the Board, the functioning of the Board and its committees, succession planning and all other corporate governance matters and practices. On the occasion of each regularly-scheduled meeting of the Board in 2009, the Committee met without management representatives present and reviewed these and other issues.

Audit Committee

The Audit Committee of the Company's Board of Directors assists the Board in fulfilling its responsibility to oversee the Company's financial reporting and audit process. The full text of the Audit Committee's Charter is attached as Schedule 1.

Members

The following identifies each current member of the Audit Committee, and the education and experience of each member that is relevant to the performance of the member's responsibilities as an Audit Committee member. All members of the Audit Committee are considered "independent" and "financially literate" within the meaning of MI 52-110.

J. Duncan Gibson

Mr. Gibson holds a Bachelor of Commerce and a Masters of Business Administration. His career spanned 27 years with the Toronto-Dominion Bank, including nine years in the Corporate Banking, U.S. Division, and as Vice-Chairman with responsibility for the Commercial Banking Division.

Clark S. Binkley

Dr. Binkley holds a Bachelor of Arts in Applied Mathematics and a PhD in Forestry and Environmental Studies. He was recently the Chief Investment Officer of the world's largest private equity timberland investment firm. He has served as a director of public and private forest products companies.

William P. Ketcham

Mr. Ketcham, as one of West Fraser's founders, has been involved in the Company's financial affairs since it was established in 1955. He has served as a director and member of the Audit Committee continuously since the Company's first public offering in 1986.

Janice G. Rennie

Mrs. Rennie, who holds a Bachelor of Commerce, is a Chartered Accountant. She was elected as Fellow of the Chartered Accountants in 1998. Mrs. Rennie is currently a member of the audit committees of Methanex Corporation and Capital Power Corporation and has chaired or been a member of several audit committees of other public companies.

Pre Approval Policies and Procedures

The Audit Committee has adopted a policy that sets out the pre-approval requirements related to services to be performed by the Company's independent auditors. The policy provides that the Committee will annually review proposed audit, audit-related, tax and other services (to be submitted by the Chief Financial Officer and the independent auditor), and will provide general approval of described services, usually including specific maximum fee amounts.

Unless a service has received general pre-approval, it will require specific pre-approval by the Committee. The Committee is permitted to delegate pre-approval authority to any of its members. The Committee reports on the pre-approval process to the full Board of Directors from time to time.

Fees Paid to Auditors (\$ thousands)

Table 12

	2009	2008
Audit Fees ¹	899	964
Audit Related Fees ^{2,3}	176	173
Tax Fees ²	355	288
All Other ²	—	3

1. Represents actual and estimated fees related to fiscal year ends.

2. Represents fees invoiced in the fiscal year.

3. For assurance and related services that are reasonably related to the performance of the audit but are not reported as "Audit Fees".

Material Contracts

On March 30, 2007, the Company entered into a committed revolving \$600 million operating facility with a maturity date in 2012 and a three-year term facility of \$100 million to provide funding for the purchase of 13 U.S. sawmills. The operating facility was amended on September 16, 2008 to reflect certain covenant adjustments and other changes. The facility was again amended as at January 29, 2010 to reflect further covenant adjustments and other changes. As part of the latest amendment, the Company is issuing general floating security on its assets in favour of its lenders and, where required under applicable U.S. laws, mortgages on certain real properties in the U.S.

Incorporation by Reference

The sections of the Company's Annual Report entitled "Management's Discussion & Analysis" and "Six-Year Review" are incorporated herein by reference.

Additional Information

When securities of the Company are in the course of distribution pursuant to a short form prospectus, or a preliminary short form prospectus has been filed in respect of a distribution of its securities, the Company will, upon request, provide to any person:

- (a) one copy of this Annual Information Form, together with one copy of any document, or of the pertinent pages of any document, incorporated by reference in this Annual Information Form;
- (b) one copy of the comparative consolidated financial statements of the Company for the year ended December 31, 2009, together with the accompanying auditors' report, and one copy of each interim consolidated financial statement of the Company prepared for a period after December 31, 2009;
- (c) one copy of the Information Circular for the annual general meeting of the Company to be held on April 27, 2010; and
- (d) one copy of each other document that is incorporated by reference in the short form prospectus or the preliminary short form prospectus and is not described above.

Additional information, including directors' and officers' remuneration and indebtedness, principal holders of the Company's securities and options to purchase its securities, is contained in the Company's Information Circular. Additional financial information is provided in the Company's comparative consolidated financial statements for the year ended December 31, 2009.

Copies of this Annual Information Form and the documents incorporated by reference therein, the comparative consolidated financial statements of the Company (including the auditors' report) for the year ended December 31, 2009, each consolidated interim financial statement prepared for a period after December 31, 2009, the Company's Information Circular and Annual Report may be obtained at any time upon request from the Company, but the Company may require the payment of a reasonable charge if the request is made by a person who is not a security holder of the Company.

This Annual Information Form, the Company's Annual Report and additional information concerning the Company may also be obtained on the web site www.westfraser.com and on the System for Electronic Document Analysis and Retrieval ("SEDAR") at www.sedar.com.

Schedule 1

Audit Committee Charter

The Audit Committee Charter, which is set out below, was approved by the Board on December 9, 2003.

General Mandate

To assist the Board in fulfilling its responsibility to oversee the Company's financial reporting and audit processes, its system of internal controls and its process for monitoring compliance with applicable financial reporting and disclosure laws and its own policies.

Responsibilities

The Committee will carry out the following responsibilities:

Financial Statements

- Review significant accounting and financial reporting issues, including complex or unusual transactions, significant contingencies and highly judgmental areas, and recent professional and regulatory pronouncements, and understand their impact on the Company's financial statements.
- Review interim financial reports (including financial statements, management's discussion and analysis and related news releases) with management and the auditors before filing with regulators and consider whether they are complete and consistent with the information known to Committee members.
- Understand how management develops interim financial information, and the nature and extent of auditor involvement.
- Review with management and the auditors the results of the audit, including any difficulties encountered.
- Review the annual financial statements, and consider whether they are complete, consistent with information known to Committee members, and reflect appropriate accounting principles and provide a recommendation to the Board with respect to the approval of the statements.
- Review with management and the auditors all matters required to be communicated to the Committee under generally accepted auditing standards.

Annual Information Form (continued)

Internal Control

- Consider the effectiveness of the Company's internal control over annual and interim financial reporting, including information technology security and control.
- Understand the scope of the auditors' review of internal control over financial reporting, and obtain reports on significant findings and recommendations, together with management's responses.

Audit

- Review the auditors' proposed audit scope and approach.
- Review the performance of the auditors, and provide recommendations to the Board with respect to the nomination of the auditors for appointment and remuneration.
- Review and confirm the independence of the auditors by obtaining statements from the auditors on relationships between the auditors and the Company, including non-audit services, and discussing the relationships with the auditors.

Compliance

- Review the effectiveness of the system for monitoring compliance with financial reporting and disclosure laws and the results of management's investigation and follow-up (including disciplinary action) of any instances of non-compliance.
- Review the findings of any examinations by regulatory agencies, and any auditor observations.
- Obtain regular updates from management and Company legal counsel regarding compliance matters.

Reporting Requirements

- Regularly report to the Board about Committee activities, issues and related recommendations.
- Provide an open avenue of communication between the auditors and the Board.
- Review any reports the Company issues that relate to Committee responsibilities.

Other Responsibilities

- Institute and oversee special investigations as needed.
- Develop and implement a policy for the approval of the provision of non-audit services by the auditors and assessing the independence of the auditors in the context of these engagements.
- Be available to receive and deal with, on a confidential basis, reports, complaints or other communications from officers or employees of the Company.
- Perform other activities related to this charter as requested by the Board.
- Review and assess the adequacy of the Committee Charter annually, requesting Board approval for proposed changes.
- Review terms of any Code of Conduct established by the Board and respond to any related compliance issues.
- Confirm annually to the Board that all responsibilities outlined in this charter have been carried out.

Qualifications and Procedures

- The composition of the Committee will comply with applicable laws including requirements for independence, unrelated to management, financial literacy and audit experience.
- The Committee will meet at least four times annually, and more frequently as circumstances dictate, and the CFO and a representative of the auditors should be available on request to attend all meetings.
- The Committee should meet privately in executive session with representatives of each of management and of the auditors to discuss any matters of concern to the Committee or such members, including any post-audit management letter.
- Minutes of each meeting should be prepared, approved by the Committee and circulated to the full Board.
